- Classes are subject to change without prior notice. Visit the Negishi Community Center for the latest schedules.
- Kids' classes are for children of ages 5 and up, unless specified otherwise.

**Chigiri-E:** Fine pictures done completely with Washi paper. Chigiri-E is a Japanese art form in creating a picture from washi paper torn to various sizes and shapes. This class will teach you the techniques on how to create a detailed picture using washi paper and glue.

**Gakken:** External learning establishment for students to further enhance fundamentals taught at school as well as information not taught in regular classes. In other words, Group Tutoring.

**Ikebana:** Paintings are artistic expressions brushed on to canvas. Ikebana is a 3-dimensional artistic expression composed of flowers. In Japan, it is thought that a good flower arrangement brings balance and harmony to a room. Ikebana Kofu is the Japanese form of flower arrangement. In this class you will create attractive pieces using the flowers purchased at this class. Ikebana Sogetsu is similar to Kofu but on a larger scale using other elements from nature.

**Japanese Calligraphy (Sho-Do):** Sho-do is an ancient way of writing letters and also creating wall decor. Using a brush and sumi (black ink) you will learn to write Japanese characters with an artistic appeal. Again, elegance and simplicity is what makes Sho-Do such a popular art form.

**Japanese Tea Ceremony:** The tea ceremony is a traditional Japanese art form. As well as serving tea to entertain the guests, the tea ceremony trains the mind and helps us to understand the essence of human relationships.

**Kimekomi Dolls:** Kimekomi or “insert into wood groove” is one of Japan’s many styles of constructing a traditional doll, dating back to the 18th century. Originally, the body and face of the doll were made of wood. Grooves were then carved for inserting the thin fabric for the dress and other elements. Though wood is not commonly used today, we will show you how to construct a doll using similar material with the same methods.

**Kimono Dressing:** Kimono is, perhaps, one of Japan's most beautiful treasures. This class will show you the proper methods of wearing a kimono. We will also show and explain the beauty of the fabric and its pattern, other types of Japanese clothing, culture and history of this Japanese treasure.

**Koto:** The Koto is a traditional Japanese musical string instrument. The Koto has 13 bow strings. Unlike guitar strings, the bow strings are all the same thickness. The Koto is tuned by moving pillars, along each string, back and forth (in guitar terms, it would be considered as moveable fret crowns). Tones are made by plucking the strings with a TSUME (clip on picks for each finger) while pressure is put on the strings with the other hand.

**Kumon:** The Kumon method is one of the largest math and language tutoring systems in the world. Kumon was founded by Toru Kumon. Mr Kumon personally taught his son mathematics until he mastered it. It was learned that repeating the same equations and questions in an allotted time limit helped students achieve a perfect score and this became the Kumon method.

**Obi Art:** Obi is the sash belts used with Japanese kimono. Part of such a beautiful treasure, the patterns and fabric of the Obi alone is an art itself. This class will teach you to make beautiful decorations using the Obi sash belt.

**Origami:** Origami, which translates to ‘folding paper’, is an ancient Japanese art of folding paper into various shapes and forms. This class will teach you how to be creative with great detail in this Japanese art form.

**Oshi-E:** Oshi-E is another traditional Japanese art form. After a design is decided and drawn out, pieces of fabric are cut to sizes and shapes to create particular body parts, clothing, and accessories. Finally, using tools and techniques, these elements are glued and connected to create a wonderful piece of Oshi-E.

**Oshibana:** Oshibana is a very popular art form that requires patience and artistic mind. Flowers and leaves are pressed and dried for a given time. Once pressed, the elements are used to create attractive art pieces.

**Pottery:** Pottery is produced all over the world, in innumerable shapes and through a fascinating range of methods, which have developed through the variety of cultures and customs, and geographical conditions in the world.

**Shamisen:** This is a 3 string instrument (similar to the banjo) which originally came to mainland Japan via the Ryukyu islands (Okinawa). The length is similar to the banjo and is played with a plectrum (miniature spatula). The shamisen has no fret crowns therefore provides the freedom of creating different tones and finger slides made with ease.

**Sumi-E:** Sumi-E means ‘Black Ink Painting’. Black ink on white paper with simplicity, elegance and serenity, with simplicity being the most outstanding characteristic of Sumi-E. You will learn the proper brush strokes and techniques of this fine art.

**Tea Box Covering:** The history of the Tea Box goes back 100’s of years. Originally created for tea storage, the simple wooden tea box is now commonly used for storing other personal items. This class will show you how to decorate the tea box, which can then be used as decor for the interior of your home.

**Washi Eggs, Washi Obi and Washi Magnet:** Washi and Chiyogami are both types of Japanese paper used to decorate various types of handicrafts. This class will teach you how to decorate eggs, magnets and create delightful and useful items to give as gifts.

# WHAT IS.....
